**Commissioner for Patents**

In the Information Disclosure Statement (IDS) submitted 10/09/2007, the listed foreign patent documents are in compliance with the provisions of 37 CFR 1.97 and is being considered by the examiner. The listed Non Patent Literature (NPL) documents are not in English and do not have corresponding explanations of relevance. The listed NPL are not in compliance with 37 CFR 1.98 and are not considered by the examiner. Furthermore, Applicant stated a copy of a Japanese Office action dated August 2, 2007 (and English translation thereof) is submitted with the IDS. However, the IDS does not include a listing of the Japanese Office action (and English translation). 37 CFR 1.98(a)(1) requires the following: (1) a list of all patents, publications, applications, or other information submitted for consideration by the Office; (2) U.S. patents and U.S. patent application publications listed in a section separately from citations of other documents; (3) the application number of the application in which the information disclosure statement is being submitted on each page of the list; (4) a column that provides a blank space next to each document to be considered, for the examiner's initials; and (5) a heading that clearly indicates that the list is an information disclosure statement. The Japanese Office action (and English translation) has been placed in the application file but has not been considered.

  
**NATHAN FLYNN**  
**SUPERVISORY PATENT EXAMINER**
